Front End Developer

Front-End Web Developer with a background in history and teaching experience can apply these skills to build an accessible and informative website for the user. Recently earned a certificate in Full Stack Web Development from the University of Kansas with newly developed skills in CSS3, JavaScript, MySQL, React.js & MongoDB. Known for expanding current skills set in order to create innovative web designs. Driven to give the user the impression that the product they are using was created with universal design and user in mind. Prepared for a future as part of a fast-paced and quality-driven team in order to build better experiences on the web.
